

Instructor

Biological Control and Biotechnology Module

Department of Agricultural Sciences and Production

Zamorano University

www.zamorano.edu

Main Responsibilities

- Plan, coordinate, conduct, supervise, and assess the Learning by Doing program activities.
- Provide tutoring and academic support to students in the Learning by Doing program when needed.
- Deliver talks and presentations according to the established schedule.
- Evaluate student performance on a daily basis and record grades both physically and in the academic system.
- Monitor and assess the overall learning process of participating students.

Requirements

- Bachelor's degree in Agricultural Engineering or a related field.
- Minimum of two (2) years of relevant professional experience.

Preferred Knowledge and Skills

- Experience supervising students and/or staff.
- Demonstrated passion for teaching and mentoring young people.
- Solid technical expertise in the area of specialization.
- Familiarity with occupational safety procedures related to the nature of the work.
- Strong command of Microsoft Office applications.
- Basic knowledge of administrative, accounting, and financial principles.
- Ability to plan, prepare, execute, and monitor budgets.
- Experience in human resource management.
- Valid driver's license and up-to-date personal documentation.
- Must be legally authorized to live and work in Honduras.
- Intermediate English proficiency: capable of understanding the main ideas of clear standard texts on familiar topics, whether in a work, academic, or leisure context. Can describe experiences, events, and aspirations, and briefly explain opinions or plans.

Core Competencies
