

Professor of Agricultural Economics and Agribusiness

Department of Agribusiness

San Antonio de Oriente, Francisco Morazán, Honduras

Join an institution that prepares leaders to transform the world

At Zamorano University, we believe education has the power to transform lives, territories, and agri-food systems. For more than 80 years, we have educated professionals with academic excellence, strong ethical values, and a deep commitment to sustainable development in Latin America and beyond.

We are currently seeking to add a **Professor of Agricultural Economics and Agribusiness** to our academic team, an individual with strong academic credentials, a passion for teaching, and a clear interest in applied research and experiential learning.

Your impact at Zamorano

As a member of our faculty, you will have the opportunity to:

- Educate undergraduate and graduate students in Agricultural Economics, Econometrics, Data Analytics, Optimization, and AI applied to Agribusiness.
- Design and deliver innovative courses in both in-person and virtual formats, aligned with Zamorano's *Learning by Doing* educational model.
- Lead and strengthen academic initiatives such as the Sustainable Consumption Laboratory and the Neuromarketing Module.
- Mentor and advise students in capstone projects, applied research, and hands-on learning experiences.
- Contribute to curriculum development, university life, and strategic initiatives within the Agribusiness Management Department.

Research, outreach, and global collaboration

We expect the selected faculty member to:

- Develop a strong applied research agenda in agricultural economics and agribusiness.
- Publish in indexed, peer-reviewed academic journals and participate in scholarly conferences.
- Secure external funding to support research, teaching, and outreach initiatives.
- Collaborate with interdisciplinary teams and build partnerships with the private sector, research institutions, and international organizations.
- Engage in extension activities, professional training, and institutional outreach.

Profile we are seeking

Required qualifications:

- Ph.D. in Agricultural Economics, Applied Economics, or a closely related field.
- Proven proficiency in both Spanish and English, written and spoken.
- Strong interest and commitment to university-level teaching at undergraduate and graduate levels.
- Demonstrated ability (or strong potential) to develop research programs, secure external funding, and publish scholarly work.
- Excellent communication skills, collaborative mindset, and a student-centered approach.

Preferred qualifications:

- Experience in data analytics, consumer behavior, or AI applied to agribusiness.
- A solid track record in academic publishing and project management.
- Experience engaging with the productive sector or international institutions.
- An innovative and strategic approach to university teaching.

Why Zamorano University?

- A diverse, international academic community
- A practical, transformative educational model
- A unique natural setting with a fully residential campus
- Meaningful opportunities for regional and global impact
- Competitive salary and benefits, commensurate with experience and qualifications

How to apply

Please submit the following documents in PDF format:

- Cover letter describing your motivation and alignment with the position.
- Curriculum vitae, including at least two (2) professional references.
- Teaching philosophy statement outlining your pedagogical approach and future development.

Send all application documents to: talentohumano@zamorano.edu

Non-discrimination policy

Zamorano University does not discriminate based on ethnicity, race, religion, gender, or nationality in the administration of its educational and admissions policies, financial aid programs, extracurricular activities, employment practices, or any other institutional activities.
