

Professor of Dairy Science and Technology

Department of Agroindustry

San Antonio de Oriente, Francisco Morazán, Honduras

Join an institution that prepares leaders to transform the world

At Zamorano University, we believe education transforms lives and that applied science in agroindustry plays a critical role in advancing sustainable development across our region and beyond. We are looking for passionate educators and researchers who are eager to teach, investigate, and mentor the next generation of professionals through hands-on learning in an environment defined by academic excellence, innovation, and social commitment.

About the opportunity

If you enjoy sharing knowledge, bridging theory and practice, and leading high-impact initiatives, this position is for you. As a **Professor of Dairy Science and Technology**, you will join a dynamic faculty team committed to excellence and educational innovation. You will actively contribute to Zamorano's *Learning-by-Doing* model, guiding students through research projects, product development, and real-world experiences within the dairy industry.

Your impact at Zamorano

As a member of our faculty, you will have the opportunity to:

- Inspire and educate undergraduate and graduate students in a multicultural, highly experiential learning environment.
- Design and teach innovative courses in both in-person and virtual formats, aligned with Zamorano's *Learning by Doing* educational model.
- Conduct internationally relevant research in Dairy Science and Technology with tangible impact on communities and productive systems.
- Build and strengthen academic, scientific, and industry partnerships at the regional and international levels.
- Mentor students in research projects, theses, and applied learning experiences.
- Actively contribute to university life, curriculum development, and strategic institutional initiatives.
- Lead innovation initiatives in the dairy sector, fostering strong links between academia and industry.

Research, outreach, and global collaboration

We expect the selected faculty member to:

- Develop a robust program in research, outreach, and professional engagement in Dairy Science and Technology.
- Secure external research funding and publish in peer-reviewed scientific journals.
- Present research findings at international conferences.
- Collaborate with interdisciplinary colleagues to advance sustainable solutions in the dairy industry and global health.
- Participate periodically in international research projects and academic supervision activities.

Profile we are seeking

Required qualifications:

- Master's degree in Food Science and Technology (with an emphasis on dairy science); Ph.D. preferred.
- Solid academic and/or professional experience in the dairy industry.
- Proven proficiency in both Spanish and English, written and spoken.
- Strong interest and commitment to university-level teaching at both undergraduate and graduate levels.
- Demonstrated ability (or strong potential) to develop research programs, secure external funding, and publish scholarly work.
- Excellent communication skills, collaborative mindset, and results-oriented approach.

Preferred qualifications:

- A track record of excellence in teaching and research appropriate to career stage.
- Experience in international nutrition and human health.
- Previous collaboration with industry, the public sector, or international organizations.
- An innovative, multidisciplinary approach to teaching and learning.

Why Zamorano University?

- A diverse, international academic community
- A practical, transformative educational model
- A unique natural setting with a fully residential campus
- Real opportunities for regional and global impact
- Competitive salary and benefits, commensurate with experience and qualifications

How to apply

Please submit the following documents in PDF format:

- Cover letter describing your motivation and alignment with the position profile.
- Curriculum vitae, including at least two (2) professional references.
- Teaching philosophy statement outlining your pedagogical approach and future development.

Send all application documents to: talentohumano@zamorano.edu
