

Join Zamorano University as:

Agroecology Instructor

Department of Environment and Development
Valle del Yeguaré, Francisco Morazán, Honduras

Why Zamorano University?

At Zamorano University, we transform lives through hands-on education and academic excellence. We are a leading institution in agricultural and agribusiness education in Latin America, committed to innovation, sustainability, and the holistic development of our students.

Join our team and become part of a community that creates meaningful impact across the region.

About the Opportunity

If you are passionate about experiential teaching and want to contribute to the development of highly skilled professionals, this is your opportunity.

Your Impact at Zamorano University

You will play a key role in delivering hands-on training, advancing applied research, leading community outreach initiatives in rural areas, and strengthening global partnerships that position Zamorano University as a leader in innovation and sustainable development.

Research, Outreach, and Global Engagement

In this role, you will:

- Advance applied research initiatives
- Support extension projects that strengthen rural communities
- Participate in global collaboration efforts that expand Zamorano University's academic and social impact

What You Will Do

- Supervise and provide instruction within the Learn-by-Doing module
- Deliver training sessions and lectures (virtual and in person) aligned with the Learn-by-Doing model
- Design and implement the overall planning of the Learn-by-Doing module
- Provide data and documentation for assessment cycles
- Contribute to the Department of Environment and Development's training programs through the design of courses for external partners

- Develop and implement a business plan for the Agroecological Farm
- Ensure the optimal use and maintenance of Agroecological Farm resources
- Support departmental engagement initiatives aligned with your area of expertise

What We're Looking For

- Bachelor's degree in Environment and Development Engineering, Agronomy, or a related field
- Minimum of two (2) years of relevant professional experience
- Strong theoretical and practical knowledge in your area of specialization
- Experience supervising students
- Familiarity with occupational health and safety procedures relevant to the role
- Proficiency in Microsoft Office
- Valid driver's license

How to Apply

Interested candidates should submit the following documents to **talentohumano@zamorano.edu**:

- Cover letter outlining motivation and alignment with the position
- Résumé including at least two professional references

Subject line: Agroecology Instructor

Application deadline: March 15, 2026

Non-Discrimination Policy

Zamorano University does not discriminate based on ethnicity, race, religion, gender, or nationality in the administration of its educational and admissions policies, financial aid programs, extracurricular activities, employment practices, or any other institutional activities.
